

Progress Report: Sri Lanka Clinical Trials Registry

SLCTR registration number: SLCTR/2023/014

Scientific title of trial:

Double-blinded split face left and right randomized , placebo controlled clinical trial to assess the efficacy of an antiwrinkle topical formulation in persons with facial wrinkles attending the Ayurvedic clinic at Battaramulla

Date of commencement (enrolment of first participant): 18th March 2024

Progression: 6 months ☐ 1 year ☐ 2 years ☐ 3 years ☐

At completion ☒

1. Baseline data

Any changes to the trial design/ methodology/ protocol after commencement: No

Any changes to trial outcomes after commencement: No

2. Current status

Recruitment status: Recruitment completed

Number assessed for eligibility: 63

Number recruited and allocated/randomized: 35

Number randomized to each intervention/arm:

As the study is split face, both placebo and the product were applied on the same face of the participant in left and right side and side of the face was randomized.

Arm 1: 35

Arm 2: 35

Losses after randomization:

Arm 1: 1

Arm 2: 1

One person was dropped out due to a personal reason and not due to side effects. However, intervention to treat analysis will be done with the inclusion of this subject.

3. Trial output

Date of trial completion ("last patient, last visit"): 25 July 2024

Final sample size: 35

Summary of Interim/Final data (if available):

Data analysis is ongoing.

Abstract presentations of results at scientific meetings: Not available

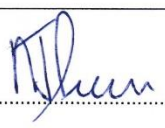

Note: please include a URL link or scanned copy of the abstract

Title of Abstract	Full citation (please include authors, date, title of conference and place of presentation, page number of abstract).

Publications : Not available

Note: please include a URL link or scanned copy of the publication

Title of paper	Full citation (please include authors, title of journal, volume, issue and page numbers, and/or DOI)
