

Progress Report: Sri Lanka Clinical Trials Registry

SLCTR registration number: SLCTR/2024/015

Scientific title of trial: A Randomised, Double-blinded, Placebo controlled Phase II Clinical Trial to Determine the Optimum Dose, Efficacy and Safety of an Ayurvedic Formulation, LNS in Patients with Dengue

Date of commencement (enrolment of first participant): 21st of May 2024

Progression: 6 months ☐ 1 year ☐ 2 years ☒ 3 years ☐

At completion ☐

1. Baseline data

Any changes to the trial design/ methodology/ protocol after commencement: The clinical trial that was originally limited to a single centre has been expanded to a multicentre trial.

Any changes to trial outcomes after commencement: N/A

2. Current status

Recruitment status: recruiting

Number assessed for eligibility: At NIIDH: 314, At NHSL: 411

Number recruited and allocated/randomized: At NIIDH: 37, At NHSL: 26

Number allocated/randomized to each intervention/arm (please edit as relevant): Randomly allocated to each arm and as the recruitment is ongoing it is blinded.

Total number allocated is 63

Arm 1:

Arm 2:

Losses/exclusions after allocation/randomization (please edit as relevant):

Total number of dropouts are 11 after allocation

Arm 1:

Arm 2:

3. Trial output

Date of trial completion ("last patient, last visit"): Expected to complete by 2027

Final sample size: 240

Summary of Interim/Final data (if available):

N/A

Abstract presentations of results at scientific meetings : none

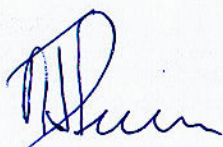

Note: please include a URL link or scanned copy of the abstract

Title of Abstract	Full citation (please include authors, date, title of conference and place of presentation, page number of abstract).

Publications

Note: please include a URL link or scanned copy of the publication : none

Title of paper	Full citation (please include authors, title of journal, volume, issue and page numbers, and/or DOI)
