

Progress Report: Sri Lanka Clinical Trials Registry

SLCTR registration number: SLCTR/2015/025

Scientific title of trial: An investigator-initiated and conducted, international, multicentre, cluster, randomised cross-over controlled trial to establish the comparative effectiveness of different head positioning in patients with acute stroke

Date of commencement (enrolment of first participant):

Progression: 6 months x 1 year 2 years 3 years
At completion

1. Baseline data

Date of commencement: 01 December 2015

Any changes to the trial design/ methodology/ protocol after commencement: No

Any changes to trial outcomes after commencement: No

2. Current status

Recruitment status: Recruiting

Number assessed for eligibility: 178

Number recruited and randomized: 178

Number allocated to each intervention/arm:

SJGH (Site No: 219) – 50 patients

CNTH (Site No: 215) – 46 patients

CSTH (Site No: 217) – 32 patients

CSTH (Site No: 216) – 12 patients

Losses/exclusions after randomization: 0

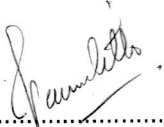

3. Trial output

Summary of Interim/Final data (if available): NIL

Presentations of results at scientific meetings: NIL
