

Progress Report: Sri Lanka Clinical Trials Registry

SLCTR registration number: SLCTR/2013/034

Scientific title of trial: A Randomized, Double-Blind, Placebo-Controlled, Parallel-Group Study to Evaluate the Effect of Alirocumab(SAR236553/REGN727) on the Occurrence of Cardiovascular Events in Patients Who Have Recently Experienced an Acute Coronary Syndrome

Date of commencement (enrolment of first participant): 1st patient was screened on 30 December 2013

Progression: 6 months 1 year 2 years 3 years
At completion

1. Baseline data

Date of commencement: 22 November 2013

Any changes to the trial design/ methodology/ protocol after commencement: Yes, Amended clinical trial protocol 6 dated 5 Dec 2013

Any changes to trial outcomes after commencement: No

2. Current status

Recruitment status: Recruitment completed

Number assessed for eligibility: 688

Number recruited and randomized: 308

Number allocated to each intervention/arm: Double Blinded

Losses/exclusions after randomization: 0 (no lost to follow up)

3. Trial output

Summary of Interim/Final data (if available): No

Presentations of results at scientific meetings: No

Publications: No
