

## Progress Report: Sri Lanka Clinical Trials Registry

---

SLCTR registration number: APPL/ 2014/ 021

Scientific title of trial: Efficacy of two treatment strategies for chronic alcohol use disorders in comparison to that currently practiced at the Psychiatric Unit of the University of Colombo – an RCT

Date of commencement (enrolment of first participant): January, 2016

Progression: 6 months  1 year  2 years  3 years   
At completion

---

### 1. Baseline data

Any changes to the trial design/ methodology/ protocol after commencement: Change of one study centre; replaced by another.

Any changes to trial outcomes after commencement: No

### 2. Current status

Recruitment status: ~~pending/ recruiting/ recruitment complete/ recruitment suspended/ recruitment terminated~~

Number assessed for eligibility: Not Recorded

Number recruited and randomized: 95 (As of October, 2017)

Number allocated to each intervention/arm: DTA – 32  
MTA – 32  
UTA – 31

Losses/exclusions after randomization: 1 death

### 3. Trial output

Summary of Interim/Final data (if available): Only a descriptive analysis done. Interim analysis in progress.

Presentations of results at scientific meetings (Please attach a scanned copy or link to abstract): Attached

Publications: Not Available  
(Please attach a scanned copy or link to paper)
