

Progress Report: Sri Lanka Clinical Trials Registry

SLCTR registration number: SLCTR/ 2017/031

Scientific title of trial: Effectiveness of first-person and third-person motor imagery in relearning daily hand tasks for people with chronic stroke: A randomised controlled trial

Date of commencement (enrolment of first participant): 25th September 2017

Progression: 6 months 1 year 2 years 3 years
At completion

1. Baseline data

Date of commencement: 25th September 2017

Any changes to the trial design/ methodology/ protocol after commencement: No changes

Any changes to trial outcomes after commencement: No

2. Current status

Recruitment status: recruitment participants has been completed on 10th March 2018.

Number assessed for eligibility: 98 People with chronic stroke

Number recruited and randomized: 60

Number allocated to each intervention/arm:

1. First-person imagery group	20
2. Third-person imagery group	20
3. Conventional occupational therapy (control) group	20

Losses/exclusions after randomization: 0

Interventions are still being conducted.

3. Trial output

Summary of Interim/Final data (if available): Data entry is in progress

Presentations of results at scientific meetings: None

Publications: None
